

PE pathway

We offer Primary PE teachers:

- High-quality programmes and excellent, innovative, research-informed teaching
- 60 credits at master's level
- Personalised levels of academic and teaching support from university tutors and school mentors
- Academic staff with excellent research/publication profiles
- Support for early career teacher induction

The course offers:

- School experience in a wide variety of primary settings
- Excellent preparation to teach all National Curriculum subjects
- Opportunity to train as a PE specialist in the primary phase
- A grounding in primary pedagogy across the whole curriculum
- Research-informed teaching
- Access to subject and priority area specialists

During the course, you will:

- Evaluate sequences of learning in Primary PE and their impact on pupil progress, linking it to current education research
- Develop knowledge and understanding around the contemporary issues of Primary PE and explore potential strategies of how to address them.
- Apply theoretical and practical knowledge and understanding of how children learn and develop in classroom settings
- Manage different patterns of organisation and styles of teaching to best support effective learning and provide equality of opportunity for all children
- Develop an understanding of SEND through the application of inclusive teaching practices
- Develop and demonstrate the knowledge, skills and teaching competence which will enable you to observe, plan, teach, organise and assess children's progress and learning across the full primary range

Develop a clear framework for your own professional values and demonstrate a critical and reflective attitude towards your practice
