

# Training locations

The course offers a supportive and innovative environment which will empower you to gain a teacher training qualification and Qualified Teacher Status (QTS). At Worcester, you will gain experience through multiple placements in a variety of contrasting school environments throughout the year, which will prepare you for a successful transition into teaching. Placement schools are decided based on the needs of the trainee and are decided on by the Black Pear Teaching Alliance. Location is taken into consideration when making this decision and whether you are reliant on public transport should be mentioned at interview.

When on placement, it is expected that you will be in school for at least the same hours as your teacher mentor. The course is demanding and we recommend that you do not undertake a part-time job alongside the course however, if you require part time work it should be at the weekend.
